Area Variances

- A. The Zoning Board of Appeals, on an appeal from a decision or determination of the Code Enforcement Officer, shall have the power to grant area variances as defined herein.
- B. In making the determination, the Zoning Board of Appeals shall take into consideration the benefit to the applicant, if the area variance is granted, as weighed against the detriment to the health, safety, and general welfare of the neighborhood or community by such grant. In making such determination, the Board shall consider the following:
- (1) Whether an undesirable change will be produced in the character of the neighborhood or community or a detriment to nearby properties will be created by the granting of the area variance;
 - (2) Whether the benefit sought by the applicant can be achieved by some method, feasible for the applicant to pursue, other than an area variance;
 - (3) Whether the requested area variance is substantial;
 - (4) Whether the proposed area variance will have an adverse affect or impact on the physical or environmental conditions in the neighborhood or district;
 - (5) Whether an alleged difficulty of compliance with the zoning requirement was self-created, which is relevant to the decision but shall not necessarily preclude the granting of the area variance.
